- Officers with heavy baggage were seen departing by train from the Vienna East Station on 2 February. Railroadmen said that the officers left aboard the Soviet military train which ran regularly between Vienna and Cop (R 49/E 90). \*

\* Comment. The number of motor vehicles picking up officers the morning of 31 January indicates that from 100 to 150 officers arrived in Vienna that morning. Compare with a previous report of November and December 1950 on the replenishment of officer personnel of the Central Group of Forces and the establishment of an officer replacement pool in Baden near Vienna. 25X1
